FINANCIAL AND COMMERCIAL.

THURSDAY, March 15-6 P. M. The stock market opened with buoyant activity to-day, and prices were further advanced; but in the afternoon a slight reaction incidental to all rapid movements was experienced. The course of speculation, however, tends strongly in an upward direction. People seem no longer to have the fear of Mr. McCulloch before their eyes, while the conservative character of the bill regarding the currency introduced by Mr. Sherman in Concress. the currency introduced by Mr. Sherman in Congress, inspires confidence in the future financial policy of the

while prime qualities were held with considerable firmness at provious prices. No decided change was apparent in prices for any description. The sales were about 6,000 bbls., at our subjoined quotations. Southern continued quiet, but prices were nominally unchanged, though common grades had a declining tendency; the sales were about 500 bbls. Canadian flour was neglected, and prices, though not quotably lower, were nominally a shade in buyer's favor, particularly for common grades, for which there was scarrely any demand. The sales comprised 250 bbls. Rye flour was dull and nominal at our quotations. No sales of importance were made. Corn meal was in moderate demand, but the market continued somewhat heavy. The only sales we heard of were about 500 bbls. Brandywine and 300 do. At the early ression of the open board the market was firm. Michigan Southern sold at 70%, Cleveland and Pittaburg 78%, Rock Island 108%, New York Central 92%, Erie 83%, Reading 101%, Fort Wayne 91%, At the first regular board there was increased activity, and the speculative feeling was stronger. New York Central, Reading and Pittsburg were the leading favorites. The former closed % higher than at yesterday's second board, with sales of 4,600 shares. The movement in this with sales of 4,600 shares. The movement in this stock is based upon the bill now before the State Legislature for removing the restriction of the company's passenger rate to two cents per mile. The same bill in an altered form was passed; but failed to same out in an altered form was passed, our failed to receive the Governor's signature last year. Michigan Southern (sales 3,300 shares) was 1½ higher. The fac of the gross earnings of this road in 1865 having beent \$4,951,441, or \$430,395 larger than those of the Michigan Central, which is selling above par, attracts attention, as also the more important one, that while other railways, like Eric, have been increasing their capital largely, this has not; but has reduced its capital since 1860 from \$20,376,013 to \$18,990,000 at the present time. During this period about three millions of net earnings, which, under other circum-stances, would have been devoted to dividends has been employed in the purchase of guaranteed stock and ex-traordinary expenses for the permanent advantage of remains uncancelled. The net carnings for the eleven months ending January 31, 1866, were, after deducting the interest on the bonds and guaranteed stock, \$886,576, which sum remains for the common stock. Reading was largely dealt in (sales 6,400 shares) and advanced 1½. Cumberland was ½ higher. Illinois Central and Northwestern were steady. Erie was % lower, North-Mariposa preferred sold at 18. It is a source of much gratification to note that for the past few days the flithy accumulations in the vicinity of West Broadway and several localities of that neighborhood, whose miasmatic vapors were continually greating the olfactory organs of the residents as a gentle premonitor of approaching choiers, are fast dusappearing under the vigorous application of the pict, shovel and broom, which implements are now wielded by the street contractors' men with an energy productive of the above result. But, in order to retain their contract by a fulfil-But, in order to retain their contact by a fulfil labor yet to perform in the great area boveres by the streets of this city, all of which may be safely said to present an object worthy of the serious consideration of these gentlemen, and consequently they will find themselves necessitated to make a larger outlar of the funds which they receive from the city treasury for the faithful performance of this heretofore much niglected work. In 1848-9 and at other periods, when threached by a visitation from cholers, it will be remembered, that the custom of sprinkling lime in the gutters around sinks and wherever else required was resorted to and with the most salutary results. The propriety for an early and judicious acattering of that disinfucting substance is highly suggestive at the present time. Shoulf the new Health Board take cognizance of this suggestion a more healthful atmosphere will be enjoyed. Let the work commence in the lower neighborhoods, abug the streets, for instance, converging to the North and East rivers and the avenues cast of Broadway. The Board is ready and willing to do all that can be expected from them, and all they ask to carry out the new Health law in every respect is the co-operation of the people.

Our Legislative Assembly is again in session, and it is now apparent to that august body that their lavish ex-penditure of the public money for the last ten years has now come to an end, for the best of all reasons—the

now come to an end, for the best of all reasons—the money is all spent; and after borrowing some two hundred thousand dollars we are now to resort to personal taxes—house taxes, land taxes, store taxes, shop taxes, and an increase of our duties from five to ten per cent. We are contemplating a line of steamships from here to New Orieans, via Ruatan. We have already a new line of steams from here to your city, via Kingston, Jamuica.

Those lines, if once firmly established, will give a new impetus to trade with this colony, which will be of great importance to the northeastern portion of the State of Guatemala as well as British Hondorsa.

Our cane fields cannot be surpassed. During the past two years one hundred thousand coffee trees have been planted, and we now have excellent coffee from those planted, and we now have excellent coffee from those planted, and we now have excellent coffee from those planted, corn, sweet potatoes and yams grow luxuriantly wherever planted. We have now seriously turned our attention to cultivating the soil. On that depends the future of British Honduras.
